

PRESONUS ADI 192 - Conversione A/D per Eureka

 PreSonus

Cod.Art. : 1209

CARD DIGITALE PER EUREKA

The AD192 is a user installable 24bit, 192kHz digital output card for use with the Eureka Pro Recording Channel. The AD192 includes Word Clock I/O, both AES and SPDIF outputs, 24-bit word length and sample rates of 44.1k, 48k, 96k and 192k. In addition, both Professional and Consumer digital formats are supported for further flexibility and compatibility. Balanced TRS line input (RIGHT INPUT) is also included so that only one AD192 is needed for using two Eureka's in dual mono or stereo applications.

Prezzo : €245,00 IVA inclusa (€200,82 esclusa IVA)
