MIXER PASSIVO

Our popular MX3282A and MX2442A consoles offer the quality, reliability and flexibility you need to master numerous live sound or recording applications. All channels offer effective equalization plus full-fledged mute, solo and routing functions. Each bus has a separate output, a PFL function, and can be routed to the main mix. Both consoles offer a switchable solo function (PFL or solo-in-place), inserts for all mono channels, subgroups and main mix, balanced channel inputs and outputs and BNC lamp connectors. The MX3282A offers 28 channels (24 mono, 4 stereo) and 8 subgroups plus stereo main bus. A total of 8 aux sends and 4 stereo returns give you extreme flexibility.
