

## Fred Coury - Rock drumming basics (VHS)

Produttore : Carisch

Cod.Art. : 1412

### METODO PER BATTERIA

The original drummer for CINDERELLA, Fred will teach you some great rock basics using fill he has done on records with the band. He will show you how to write and play linear rock groupings even if you don't read or write music. Fred demonstrates some of the stick-trix he uses on stage to drive the audience wild. You will see a solo recorded live in Japan with Fred in all his glory. Fred also talks about "Following Your Dreams" and never giving up. A spontaneous jam with bassist Tony Franklin (The Firm, Blue Murder) and guitarist Danny Johnson shows you what Fred is all about. His great ability to groove and his humorous video is a MUST for the rock drummer.
