CONTROLLER MIDI+INTERFACCIA AUDIO USB

The exciting new B-CONTROL Series combines the unlimited versatility of today's audio software with the feel of real controls. It's the intuitive way to control and create music with a real hands-on feel. The BCA2000 is a high-speed USB 2.0 multi-channel audio MIDI control interface that raises your performance to a whole new level. Not only does it provide an intuitive control surface with 100-mm faders for audio/MIDI sequencing, it also features a high-performance analog input section that has 2 state-of-the-art studio-grade IMP "Invisible" Mic Preamps with +48 V phantom power, plus line and Hi-Z guitar inputs. Combine this with its versatile digital input and output formats like ADAT®, ADAT® S/MUX, AES/EBU and S/PDIF (including DOLBY DIGITAL® and DTS® options) and you have an unlimited array of interfacing capabilities. You can simultaneously use 3 analog input sources (1 mono + 1 stereo) with digital input sources. Its ultra-flexible input/output configuration is supported by a comprehensive LED audio routing indicator plus button (status) LEDs. Input signal distortion and A/D converter overload are prevented by the adjustable studio-grade analog input dynamic control (noise gate + limiter). The BCA2000's fully equipped USB/MIDI interface with 1 MIDI input and 2 MIDI outputs is individually selectable for 16/32 MIDI channels. Plus, full multi-channel playback is enabled at 24-bit/96 kHz. There is a high-resolution 2 x 12 element LED level indicator for stereo In/Out signals plus 2-element LED level indicator for input and output channels 3 through 8. The high-speed USB 2.0 interface with 24-bit/96 kHz supports 8 In & 8 Out channels simultaneously (analog and digital) with low-latency ASIO 2 and WDM drivers. Simply connect your B-CONTROL to your computer via high-speed USB 2.0.

Then connect your keyboard, guitar and mic. True audiophiles will surely appreciate the fully equipped master and monitor sections

BEHRINGER B-Control Audio BCA2000

with 100-mm fader, individual level controls for 2 speakers, 2 phones and low-latency direct monitor function plus separate dim, mute and mono functions. Best of all, discover just how awesome MIDI can be! Redefine how you make music. Be in control with the B-CONTROL!

Caratteristiche

- Interfaccia usb 2.0 multicanale audio 24 bit /96 kHz con funzionalità midi controller
- 2 input con pre microfonic + Phantom, supporta 8 input ed 8 output con driver asio e wdm
- Ingressi digitali in formato adat, spdif ed aes-ebu
- Doppia presa cuffie e doppio controllo monitor
- 1 midi in, 2 midi out

Prezzo : €199,00 IVA inclusa (€163,11 esclusa IVA)
