

## EDIROL Plasma 2003

**EDIROL**  
by Roland

Cod.Art. : 1590

SOFTWARE MUSICALE BASATO SU LOOP, CREAZIONE  
LOOP TRAMITE CLICK-AND-DRAG

Now you can create your own music and remixes with the same loops, beats, synths and effects used by today's DJs & remix artists. Creating new music is easy with Plasma. It lets you quickly record, edit, arrange, and mix your music. It doesn't matter what you want to record—keyboards, vocals, live turntable scratches, CD samples, or any other sound source. Plasma puts it all together seamlessly. Plasma provides everything you need: click-and-drag looping; a multitrack recorder; a joystick-controlled DJ effects mixer; software synths; audio effects; and a CD loop library created by leading Dance, Techno and Hip Hop producers. And you can do it all on the PC you already own — no expensive hardware is required.

### Caratteristiche

- Create new music and remixes using any instrument, vocals, CD or MP3 samples, or ACID™-format loops.
- Generate spectacular DJ FX with the joystick-controlled Plasma FXPad™.
- Lay down electronic synth lines with DreamStation DXi & Triangle DXi soft synths.
- Drag and drop to create tracks fast using included ACID-format loop library by leading dance and hip hop producers.
- Mix with professional audio effects.
- Share your mix—save it as an MP3\* or WMA, or a WAV file for burning CDs with the included Pyro Express.
