
LATIN PERCUSSION Pelle Bongo Hand Picked T-x Rims 9" Hembra

Produttore : Latin Percussion

Cod.Art. : 159554

Hand-selected premium heads

Thickness: approx. 1 mm

Pile height: approx. 30 mm

Material: untanned buffalo skin

Fit rim: All LP Traditional and X Series bongo hoops in the corresponding size

Notes: The hoop determines the outer diameter of the head, while the size specification refers to the crown diameter at the edge. LP bongo heads have the same outer diameter for the same crown diameter, regardless of the hoop type. The specified head sizes correspond to the effective crown diameter (for bongos and djembes, the largest diameter of the shell). This is a measure to harmonise the size specifications with REMO and LP congas. For LP bongos with manufacturer specifications of 5 1/2", 7 1/4" and 8 5/8", select 5 1/4", 7" and 8.5" heads respectively.

Prezzo : €57,00 IVA inclusa (€46,72 esclusa IVA)
