BOCCHINI

DW5281U-7C è un  
Cornet ULTRA Mouthpiece Silver Plated 7C  
sviluppato da Denis Wick con diametro tazza da 16.25 mm,  
profondità  
tazza standard, larghezza bordo da 5.22 mm e gola da 3.8  
mm.

The American Classic Series is  
based on some of the most historically popular Cornet mouthpiece  
sizes. The 7C provides a very comfortable and supportive rim, open  
blowing feel, and projecting backbone. Similar to the Bach 7C it is  
a fantastic option for beginner players, or advanced players  
looking for range support, or a piccolo trumpet mouthpiece.
