

## VESTAX PDX-2000MK2Pro

Cod.Art. : 2068

### GIRADISCHI PER DJ

Improved to make it easier for beat matching and performance play, this new platter has been lowered to a height of 7mm high and has been given a flatter edge surface. The slip mat slips better thanks to the 6 canals on the topside off the platter.

### Caratteristiche

- New arm base with a height adjust bar for accurate settings
- Hinges for the dust cover have been taken off considering the turntable being set vertically and a L type RCA cable is included for easier setting.
- The pitch control fader performs with stabilized torque and high manipulation.
- The ultra pitch fader controls the pitch range +/- 50%. Combined with the fine pitch fader, control of +/- 60% is possible. Easy one touch reverse switch makes the platter spin backwards instantly.
- From zero to desired RPM in 0.5 seconds, the PDX-2000's original high torque direct drive DC motor enables one of the fastest start up lines for any DJ turntable. Speed, torque start/stop time of the high-power DC motor are all controlled by a high-speed 32bit CPU that increase the reaction time up to 1/100 seconds. The superb performance model for club or scratch DJs with the new dynamic balance tone arm system

Prezzo : €479,00 IVA inclusa (€392,62 esclusa IVA)
