AURICOLARI STEREO

Combining quality technology and trendsetting style, Sony's new MDR-Q55SLS Headphones transport listeners to the next evolution of fashion headphones. "Solid" is designed for the house and trance fan - from ravers and techno junkies to cutting edge fashionistas - these headphones get it. Their open-air, clip-on design is headband-free, so they slip directly onto the ear and won't interfere with your hairstyle. The headphones feature a spring action earpiece designed to comfortably cradle various-sized ears. The snug fit minimizes sound leakage, offering consistent audio quality. With a 30-mm driver and neodymium magnet, these new headphones deliver a clean sound with lower distortion. In addition, a large turbo duct offers a more powerful, deep bass. Each unit in the Elements of Style line also features a gold-plated mini-plug, adjustable cord and tangle-free cord slider. Offering hard-hitting sound, S.L.S. Headphones expose listeners to impactful performance. It's a fashion accessory must have! Are you listening?
