
SABIAN 10" Xsr Mini Hat Bottom

No image

Cod.Art. : 232264

SABIAN's 10" XSR Mini Hats meet the need for snare and tenor players wanting to play with "hats" without requiring a cymbal player to hold them on the field. This hi-hat pair can be mounted on snares, tenors, and also on front ensemble racks and are designed to project and sit over the top of the ensemble. Naturally, they will also work well on any drumkit or percussion setup. With a medium heavy bottom and slightly lighter top, this pairing is made to be both musical and robust, and ready to give many seasons' service.

Prezzo : €163,00 IVA inclusa (€133,61 esclusa IVA)
