

BEHRINGER Eurolive B1520

Produttore : Behringer

Cod.Art. : 2345

MONITOR PASSIVO

The BEHRINGER EUROLIVE B1520 is a high-performance speaker system

equipped with the same great features as the B1220 but with a 15" woofer. The result is better performance in the low frequency range, eliminating the need for additional subwoofers in many applications. For large PA setups the B1520 may be used in bi-amping mode adding a B1800X subwoofer for low frequency transmission. You get a PA system that grows with your needs without making any compromises. Its trapezoidal cabinet design is perfect for cluster formation in larger PA systems. Integrated HF driver protection and professional connectors compatible to Neutrik® Speakon® complement this professional package.
