### DIFFUSORE PASSIVO PER CHITARRA

If you're after a 4 x 12" cabinet with a unique stereo surround sound, there's no way of escaping the ULTRASTACK BG412S. Due to its special circuitry and the outwardly projecting, slanted JENSEN® / BUGERA™ high-power speakers, the BG412S creates a particularly intense stereo image, while the lower speakers assure optimum center positioning. Optionally, you can use this cabinet in mono as well. The BG412S is yet another in a series of possible additions to our V-TONE GMX1200H and the V-AMPIRE LX1200H guitar heads.
