

BEHRINGER Truth B2092A Subwoofer per serie Truth

Produttore : Behringer

Cod.Art. : 2805

SUBWOOFER 360W

Powerful yet precise, the B2092A active subwoofer uses a high-power 360-Watt amplifier to deliver extreme dynamics with linear bass reproduction all the way down to 32 Hz, and as such is an incredible low frequency enhancement for BEHRINGER TRUTH studio monitors or any other professional monitoring system. Two long-excursion 8" loudspeakers with deformation-resistant aluminum die-cast chassis reduce distortion to an absolute minimum, even at the highest volume levels. The B2092A features dedicated Left, Right and Center XLR inputs and outputs for all stereo and surround applications. An innovative band-pass filter enclosure design yields excellent dynamic response and linearity, while active crossovers at 80 Hz provide precise frequency band separation and minimal phase shift. You also benefit from flexible adaptation to virtually all acoustic environments via Phase and Room Compensation controls. In short: Get wall-shattering low-end kick at a price that is unheard of!

Sistema composto da:

- High-power 360-Watt amplifier delivers extreme dynamic range, with linear bass reproduction down to 32 Hz
- 2 long-excursion 8" loudspeakers with deformation-resistant aluminum die-cast chassis for minimal distortion even at highest volume levels
- Dedicated Left, Right and Center XLR inputs and outputs for all stereo and surround applications
- Incredible low-frequency enhancement for BEHRINGER TRUTH studio monitors or any other professional monitoring system
- Innovative band-pass filter enclosure design yields

BEHRINGER Truth B2092A Subwoofer per serie Truth

excellent dynamic response and linearity

- Active crossovers at 80 Hz provide precise frequency band separation and minimal phase shift
- Overload-protection circuitry ensures optimal speaker protection
- Flexible adaptation to virtually every acoustic environment via Phase and Room Compensation controls
- Footswitch connector for remotely controllable A/B comparison (footswitch not included)
- High-performance toroidal transformer for highest power handling and lowest noise
- High-quality components and exceptionally rugged construction ensure long life

Prezzo : €256,00 IVA inclusa (€209,84 esclusa IVA)
