

BEHRINGER Ultrabass Power Pack 4 [BX4500H + BB115 + BB210]

Produttore : Behringer

Cod.Art. : 2869

TESTATA + 2 CASSE PER BASSO

Heads will turn at the sight of this stunning combination! The fans of the classic bass tone, with the characteristic punchy sound of these special high-impact cone speakers, are right on target with this massive full-stack package. It consists of the ULTRABASS BX4500H bass amp head crowning the ULTRABASS BB210 2 x 10" and BB115 1 x 15" bass cabinets, both with BUGERA™ high-impact cone speakers and a 1" horn driver for great definition. The ULTRABASS BX4500H is a massive 450-Watt bass amp head with patented Dynamizer technology, boasting a switchable Ultrabass subharmonics processor for unbelievable low-end power and a revolutionary Shape filter for extreme sound range. You get a complete set of useful functions that are simple enough to be operated intuitively and quickly. An extremely musical 5-band EQ with "Bright" and "Deep" functions gives you the ultimate in tone-shaping. There is an integrated limiter and an active, temperature-controlled cooling system for ultimate protection. You also get a vintage-style VU meter for precise signal level control. A dual footswitch for Ultrabass and Shape functions is included, and there are 3 speaker outputs on ¼" jack and touch-proof professional connectors compatible to Neutrik® Speakon®. With this amp, you can certainly rock the stage like a pro! The BX4500H sits atop two mighty bass cabs: the 600-Watt, 2 x 10" BB210 and the 600-Watt, 1 x 15" BB115, both featuring a 1" horn driver. Enjoy the classic bass foundation and the characteristically assertive mids typical of paper cones. With power-handling headroom never in short supply, this package is priced to sell.
