

VESTAX PMC-CX Carl Cox Signature

Cod.Art. : 3079

Mixer Professionale per DJ

Inspiration by DJ Carl Cox and technology from Vestax brings you the future in mixing, the future in mixer technology, and a historical product to be, the PMC-CX. The project started when Carl once said "All the mixers that are out now are simply hard to use, even worse my hands are too big to even operate on some of them." The project progressed to become reality by utilizing the technology of Vestax with the ideology from Carl Cox. Vestax and Carl Cox together through time have made it possible to introduce you the PMC-CX Matrix Input Assign System and 4 units of Stereo Isolators are featured on each PGM as well as the Master Out. The refined filter effects with superb sound quality, Headphone EQs that many DJs have asked for are incredibly laid out, placed into one unit precisely in calculated positioning of each feature with perfection. Equipment that is required and used in clubs and concerts, where hundreds and thousands of people gather, must have reliability and supreme sound quality. To let DJs play in comfort, and to take top priority in sound quality was hard to find until now... "This is a MASTER PIECE." of all DJ mixers. Experience the future, feel the difference, listen, touch and feel...an experience not to be missed!
