CHITARRA SEMIACUSTICA

Archtop guitars are boundless in time and tradition. There's just something about the classic look and that electric-acoustic sound that has appealed to all genres of musicians from country and rock to rockabilly and jazz. Yamaha crafts some of the finest archtops in the world – our artists have known this secret for years. The AE500 utilizes the tradition of the AES1500 but adds a modern twist with Yamaha's signature tailpieces, original "F" hole design, and contemporary finishes creating a unique blend of classic tradition and modern invention.
