

## E-MU PM5 Precision Monitor (coppia)

Produttore : E-MU

Cod.Art. : 3868

E-MU's new PM5 Precision Monitor has been designed from the ground up to deliver hyper-accurate audio in a compact design. From its custom audiophile amplifiers (Class-A input and MOSFET output stages) to its world-class drivers and premium cabinet, the PM5 offers superior imaging and hi-end transient detail with linear frequency response rivaling compact nearfield monitors over twice the price. Professional features like overload protection, balanced/unbalanced inputs, and treble, bass and input sensitivity controls ensure that the PM5 will seamlessly integrate into any studio environment.

### Caratteristiche

- Type: Two-way, bi-amplified nearfield reference monitor
- Frequency Response: 67Hz to 20kHz ( $\pm 2.5$ dB)
- Maximum Sound Pressure Level (short term)
- Single:  $\approx 100$ dB SPL @ 1m
- Pair:  $\approx 103$ dB SPL @ 1m
- High-Frequency Driver
- Type: Neodymium Soft Dome
- Size: 25.4mm (1")
- Low-Frequency Driver
- Type: Glass Fiber Cone
- Size: 127mm (5")
- Dimensions
- Height: 290mm (11.5")
- Width: 175mm (6.9")
- Depth: 245mm (9.7")
- Weight: 6.5kg (14.3lbs)
- Power: 120V, 60Hz (North America), 220V-240V, 50/60Hz (Europe)

Prezzo : €529,00 IVA inclusa (€433,61 esclusa IVA)
