

## E-MU Xboard 61 Master Keyboard USB

Produttore : E-MU

Cod.Art. : 4092

### CONTROLLER MIDI USB 61 TASTI

The new E-MU Xboard™ 61 USB/MIDI Controller features 61 premium full-size keys with aftertouch, 16 programmable real-time control knobs, 16 new patch select/program change buttons, Xboard Control editing software, and a full version of E-MU's Proteus X Version 1.5 Desktop Sound Module with over 3GB of sounds, including a new custom bank of E-MU's finest performance keyboard sounds. The Xboard Control (Windows/Macintosh) software provides an intuitive desktop interface that lets you effortlessly create custom templates for all of your favorite hardware and software instruments. The Xboard 61 also gives you four Zones per patch (each with its own key and velocity ranges), allows you to set discrete MIDI channels for each knob and offers unrivalled real-time control and performance features, including Snap Shot that lets you send multiple program changes and controller values by pressing a single button, and Latch Mode that enables you to define a section of the keyboard as on/off triggers - perfect for drum loops. The Xboard 61 is perfect for studio and stage and can run on USB, battery, or AC power.

### Caratteristiche

- 61 full-size professional keys with Aftertouch - the Xboard 61 is a true performance controller with a high-quality synth-action keyboard
