

ALTO MC500/4 Finale multicanale 4 x 500 Watt Rms su 4 Ohm

Cod.Art. : 4277

AMPLIFICATORE STEREO MULTICANALE

Also based on Mistral design, MC amplifiers are available in 4 and 8 channels configurations with power ranging from 300 to 800 watt per channel. They include soft start, signal limiter (that can be switched off) a variable speed low-noise fan and an LED meter display which monitors the amplifiers operation status in real time. MC Series amplifiers also include an LED meter for every channel and functions monitored include: Operation, Limiting, Clipping and Protection modes. All Mistral toroidal transformers include an independent secondary rail for better stability and dynamic range.

Caratteristiche

- Ultra low-noise and hum
- DC, infrasonic, thermal overload & short circuit protection
- Smart indicator for signal, clip, protect, bridge-mono & parallel-input LEDs on front panel
- Selectable high-pass filters protect speakers and prevent speaker transformer saturation with minimal effect on program material
- DIP switch control for clip limiter, high-pass filter, bridge-mono selections
- Variable speed fan for low noise
- Detachable Euroblock: "Barrier strip" input connectors
- 1 dB dented gain controls for fast and accurate gain settings
- RMS power: 4 x 300W @ 8Ω; 4 x 500W @ 4Ω; 2 x 1000

ALTO MC500/4 Finale multicanale 4 x 500 Watt Rms su 4 Ohm

@ 8Ω Bridged

- Dimensions (WxDxH): 483x403x89mm (19"x15.9"x3.5")

- Weight: 18.9kg (14.7 lb)

Prezzo : €549,00 IVA inclusa (€450,00 esclusa IVA)
