PIANO DIGITALE

Essential Sounds

The P-140 brings users an exceptional range of instrument voices, from organs and harpsichords to the new, all-in-one piano & string dual voice. Recorded using Yamaha's own AWM sampling technology,

all onboard voices accurately reproduce the subtlest harmonics of the actual instrument with stunning realism.

Dynamic Stereo Sampling

To offer truly authentic sound, Yamaha takes piano voice sampling to a whole new level. With three separate layers of stereo samples each set at a different velocity, Dynamic Stereo Sampling changes not only the volume, but also the harmonic structure of the notes depending on how hard you play the keyboard - just like a real acoustic piano! An exclusive fourth sample layer recreates a piano's unique sustain resonance whenever the damper pedal is pressed, while key-off samples add even the most subtle sounds of felt dampers coming to rest on piano strings. Better still, the P-140's newly designed, built-in powered speaker system directs your music forward for unbeatable sound.

Realistic Piano Action

The P-140 features Yamaha's highly acclaimed Graded Hammer Effect

keyboard, the result of more than a century's worth of piano craftsmanship and ingenuity. It's designed so that the keys in the lower registers have a heavier touch than those in the upper, which helps to create the feel of an acoustic piano. Just take a look at the different-sized hammers under the lid of any grand piano and you'll see why Yamaha puts the Graded Hammer Effect keyboard in all

P-Series instruments.

Stylish Design and Matching Keyboard Stand

The sleek and stylish P-140 is designed to impress with rounded corners, built-in speakers, and a new orange LED that is sure to turn heads. These new features are all built into a compact chassis

YAMAHA P140 Black

available in either silver or black with wood top panels of maple or dark oak respectively. What's more, these stylish designs are perfectly complemented by the P-140's optional, slim keyboard stands in either color.

Build in sequencer for your very own music

The P-140 offers a little sequencer with 2 tracks - the perfect companion to sketch your own musical ideas. Its memory holds up to

11,000 notes in up to 3 songs. Enough space for your musical creation.

50 Preset Piano Songs at Your Fingertips

Time for a break? A selection of 50 different piano songs is provided for your listening pleasure. These recordings were chosen for their beauty as well as their functionality. Since many of the songs are classic piano pieces, anyone taking lessons can listen to them for reference. Feel like practicing? Mute the left or right hand parts of any internal song for hands-separate practicing. You play one hand, while the P-140 accompanies you with the other.

Music educators agree that this is an essential part of learning any piece of music.

Caratteristiche

- Finishes P-140: Dark oak on black chassis
- P-140S: Maple on silver chassis
- Keyboard Graded Hammer Effect, 88 keys
