SINTETIZZATORE PROFESSIONALE

Just like the MOTIF ES crowned the MOTIF-series the S90 ES becomes the flagship of the S-series. No compromises. With 230 MB of sample-ROM as heart of the same tonegenerator which made the MOTIF ES a non-plus- ultra synth. With resulting sounds that are uncomparable in terms of dynamic, authenticity and inspiration. With the new developed "Damper Resonance" insert effect which gives the stunning piano voices an extra- kick of realism. With a "Balanced Hammer" keyboard that satisfies the pianist as well as the keyboardist. With all features needed for controlling large equipment setups. With perfect connectability from audio input to assignable outputs to mLAN, from MIDI to USB To Device. With best compliments from Yamaha.
