

ALESIS Fusion 6HD

ALESIS

Cod.Art. : 4478

WORKSTATION

With the Fusion 6HD, Alesis has re-examined the concept of the professional music production workstation, making ease-of-use a top design priority. Featuring 4 types of synthesis; an 8-channel hard disk recorder; a built-in 24-bit sampler; an effects processor; USB 2.0 connectivity; and expandable memory; the Fusion 6HD is a professional workstation that can effortlessly handle your most demanding production tasks.

Caratteristiche

- 61 note semi-weighted keyboard workstation
- Four integrated synthesis types: Sample Playback, Virtual Analog, FM and Physical Modeling
- Full synth workstation with 8 track 24-bit Hard Disk recording and 40Gb internal hard-drive
- High-definition 24-bit sampler with comprehensive waveform editing, internal memory expandable from 64MB to 192MB
