AMPLIFICATORE VALVOLARE PER CHITARRA CLASS A CON CONI IN ALLUMINIO

The new AC30 Custom Classic is the culmination of over 45 years of high quality, guitar amplifier design and fabrication. VOX has taken the best AC30 designs and added a number of useful, very cool features to create the most tonally flexible and affordable AC30 to date!

An evolution in tone

When Vox set out to create the AC30 Custom Classic, they started from their most highly acclaimed model to date, the AC30 Hand Wired. With twin inputs (high and Low) and a Master Volume circuit, these amps offer highly interactive Bass and Treble tone controls, as well as the VOX Tone Cut control (which varies the presence in the power amp section) for even greater tonal variety. We also included Classic Tremolo with variable Depth control and a spring reverb with Level and Tone controls as well as a Dwell switch.

Two blendable channels, a first

Not only does the AC30 Custom Classic include two channels, it also

offers the ability to blend those channels together (a first for the AC30!). The Top Boost Channel serves up that classic AC30 tone,

while our new expanded Normal Channel now offers two modes, Normal

and Bright, which allow you to achieve the sounds of an assortment of vintage AC30s. Use the channels individually or blend them together for increased tonal flexibility to create a unique sound and feel that's all your own.

Control freaks rejoice!

The AC30 Custom Classic is fully equipped with well thought out and

VOX AC30CC2X

easy to use controls. With a Custom/Normal EQ switch, Tone control and Dwell switch for the spring reverb, Master Volume, fully variable Tremolo on all channels and a true bypass Effects Loop, we've thought of everything! We've even included a switchable cathode resistor that lowers power output and increases tube life. Of course, the AC30 Custom Classic comes with our standard controls

like Treble, Bass, Tone, Volume, Standby and more.

Multiple configurations

Not only is the AC30 Custom Classic the most flexible AC30 to date, it comes in Vox's most expansive array of models ever to cover a variety of needs and player preferences.

Caratteristiche

- Front panel controls: Inputs x 2 (Top Boost & Normal);
- Input Link Switch for blending channels;
- Normal Volume;
- Brilliance Switch;
- Top Boost Volume;
- Treble;
- EQ Standard/Custom Switch;
- Bass; Reverb Controls (Tone, Mix, Dwell Switch);
- Tremolo Speed & Depth;
- Tone Cut;
- Master Volume;
- Standby Switch;
- Power Switch Rear panel controls:
- Loudspeaker output jack x 2 (Extension & External);
- Output (O/P) Impedance Select (8 or 16 Ohm);
- Output Bias (82 "Warm" or 50 "Hot");
- Smoothing (22uF "Vintage" or 44uF "Modern");
- FX Loop (Send, Return and Bypass Switch);
- Footswitch Jack (Tremolo and Reverb);
- HT Fuse;
- Mains Input;
- Mains Fuse;
- Model Dimensions/Weight: 70.5 lbs. 27.75" (W) x 10.4" (D) x 21.25" (H)
