### LETTORE CD/MP3 PER DJ

Co-designed by Mixwell and Tascam DJ, the CD-DJ1 is one of the smallest tabletop CD/MP3 players for professional DJs.

Although it may be small in size, it's big on powerful features, including seamless loops, hot starts, master tempo and more. And with its low profile, ultra-compact size, there's no need to lug a big, traditionally heavy tabletop CD player around.

The CD-DJ1 is also compatible with Tascam's award winning TT-M1 Scratch Controller. Once connected to the CD-DJ1, you can use your existing turntable and any vinyl record to mix and scratch MP3s and CD audio without the need of any special audio hookups, coded vinyl or computer.
