

ALTO Digan 2.14 Equalizzatore digitale

Cod.Art. : 4797

EQUALIZZATORE DIGITALE

Finally a complete line of digital equalizers you can employ as you would as your traditional analogue EQs. Simply activate the band you want to operate and create your own sounds. You can see the result of your changes on the LED display of the DIGAN equalizer instantly. So what makes our DIGAN equalizers unique - The convenience of a USB port and the availability of a user friendly Windows PC editor. With the DIGAN series you can edit your mix from your laptop and save your settings in one of the many resident memory cells. DIGAN models also include a powerful dynamic processor with editable memory via PC.
