

TASCAM CD160 mk2 Lettore CD/MP3 Professionale 2U rack

TASCAM
TEAC PROFESSIONAL

Cod.Art. : 5024

The CD-160 MkII offers a simple, cost-effective solution to installations where the extra features of a more complex CD player might go unused. Yet it provides features such as MP3 playback, pitch control with an on/off knob, a headphone output with level control, intro check, and a variety of playback modes which can help prevent the user from making a mistake. The wireless remote control (included) gives access to a track directly via a 10-key pad and allows to search for a track name during the playback of an MP3 disk.
