

## VESTAX CDR07DJ

Cod.Art. : 5504

### LETTORE CD-MP3 E RECORDER CON EFFETTI

The world's first professional rewritable audio CD recorder. Full spec DJ functions combined with a high-grade recording system, allowing DJs and musicians to record real time in the studio, at home and on stage. Dissemination of computers has brought digital recording on CDs and DVDs to a standard level today. On the other hand, recording from analog to digital still has many difficulties with the set up noise, and low sound quality. The Vestax CDR-07 can record any kind of music and sound to CDs, with the world's most diffused digital media, using only one cable in real time and with DJ beloved features such as +/-100% tempo control, master tempo, scratch mode, cue mode, sampler, mp3 readable and built-in effects. Play, record and copy, all in one to enjoy and create music on the go

### Caratteristiche

- Enhanced Input and Output section
- Multi Track numbering system
- The newly designed CD record mechanism has been upgraded to a more specific device for music sources
- Professional DJ Interface
- Pitch Control & Independent key control
- Master Tempo
- A feature beloved by mobile DJs that saves up to 100tracks worth of track lists, CUE points and LOOP points
- 4 cue points can be set out via 2 means of selection (last start position or pause position). CUE 1,2,3 can be played instantly with the CUE play mode, just like using a sampler
- New filter creates the warmth of vinyl with a phat and deep

## VESTAX CDR07DJ

sound, keeping specific sound qualities even when, it's used with kW grade SR systems

- MP3 readable with the 320kbps MP3 encoder. Features such as scratching, sampling, looping and pitch controlling that were once only a computers job, is now operational with the CDR-07
- Flanger, Filter and Digital Delay (max 3.5sec) effects built in. With EFFECT SYNC, the auto BPM counter counts the BPM and synchronizes the effects to the beat

Prezzo : €789,00 IVA inclusa (€646,72 esclusa IVA)
