MICROFONO A CONDENSATORE DA STUDIO

The Perception 200 is a large diaphragm true condenser microphone offering outstanding build quality and excellent value. The useful features and the included accessories emphasize the versatility of this microphone. It delivers a classic warm and transparent sound and conforms to the stringent standards defined for AKG recording products. The Perception 200's design is based on AKG's nearly six decades of experience and from input provided by sound engineers around the world that use AKG products every day. This general purpose 1-inch large diaphragm microphone brings AKG studio quality to all areas of recording, specifically projects studios and live sound applications. The switchable bass roll-off and the pre-attenuation pad makes it perfectly suited even for sources with high sound pressure levels up to 145 dB SPL.
