

BEHRINGER UL2000B Ultralink Radiomicrofono UHF True Diversity

Produttore : Behringer

Cod.Art. : 6016

RADIOMICROFONO TRUE DIVERSITY UHF AD ARCHETTO

BEHRINGER goes wireless at a performance level and price that's unheard of! With the revolutionary ULTRALINK UL2000B true diversity headset system, you will experience one of the best performing and innovative designs available in this segment. Choose from 320 transmission frequencies and enjoy the powerful advantage of simultaneous operation for up to 20 systems.* The IRC compander guarantees incredible dynamics and low noise. You get an excellent headset microphone perfect for vocal applications, featuring a Panasonic condenser transducer. With its user-friendly control menu and comprehensive LCD screen, the receiver is extremely easy to operate. One of the ULTRALINK highlights—a feature never seen in this price range—is the availability of user-tunable transmit frequencies in addition to the 3 presets with 8 interference-free channels each. This way, you have a total of 320 different frequencies available to you, ensuring that you will find a free frequency, no matter how crowded it gets! The receiver also features a switch-mode power supply with easily interchangeable AC plugs for maximum flexibility (100 - 240 Volts). The ULTRALINK ULR2000 true diversity receiver easily fits into your 19" rack and can be mounted with the included rack-mounting kit.

Caratteristiche

- High-performance UHF True Diversity Headset System with 320 selectable frequencies for ultimate flexibility
- True Diversity technology and proprietary antenna design ensures exceptionally long range for greatest signal reliability and freedom of movement
- Simultaneous operation of up to 20 wireless systems possible*
- Ultra-wide audio bandwidth for highest signal

BEHRINGER UL2000B Ultralink Radiomicrofono UHF True Diversity

integrity

- High-performance IRC compander guarantees incredible dynamics and low noise
- Excellent headset microphone perfect for vocal applications, featuring a Panasonic condenser transducer
- Transmitter features extremely long battery operating life with a 9 V battery (not included)
- Mute function and Low Battery indicator conveniently located on transmitter
- Receiver utilizes proprietary scan function for microphone frequency location
- Innovative transmission of status/control information such as mute and low battery
- Auto-mute function automatically eliminates noise caused by switching channels or powering the transmitter on/off
- 3 presets, each with 8 interference-free channels plus one additional user-preset with 8 freely definable channels
- Lockout function to protect receiver settings against undesired changes
- Color-coded strips for easy matching of multiple transmitter and receiver devices
- Internal switch-mode power supply for maximum flexibility (100 - 240 V~), noise-free audio, superior transient response all at the lowest possible power consumption levels for energy savings
- Meets all requirements for professional equipment and complies with ETSI guidelines
