

TASCAM X48 Hybrid Hard Disk Workstation 48 Tracce

TASCAM
TEAC PROFESSIONAL

Cod.Art. : 6068

HYBRID HARD DISK WORKSTATION 48 TRACCE

X-48 is Tascam's first standalone 48-track Hybrid Hard Disk Workstation which integrates the best of both worlds: the stability and ease-of-use of a purpose-built hard disk recorder, with the GUI, editing features and plug-in compatibility of a computer-based digital audio workstation. It boasts 96kHz/24-bit recording across all 48 tracks. Yet the X-48 goes beyond mere standalone recorders

— its built-in, automated 48-channel digital mixer, VGA display output, powerful editing functions and DVD+RW backup drive transform it into a complete integrated workstation. Its file compatibility and synchronization surpass even the TEC Award-winning MX-2424, with Broadcast WAVE and OMF import and export for compatibility with workstations like Pro Tools®. Support for FireWire hard drives and Gigabit Ethernet allows simple transfer between systems, making it the ultimate multitrack solution for high-quality music, post and live recording applications.

Caratteristiche

- Multitrack Recording:
- 48-track digital recording at up to 96kHz/24-bit
- 32-bit floating point audio file recording and playback with no loss of track count
- Advanced integrated synchronization and machine control, including HDTV tri-level sync
- Time-stamped Broadcast WAVE file format
- Front-panel transport, track arming, project management and metering functions
- Built-in 80-GB hard drive

TASCAM X48 Hybrid Hard Disk Workstation 48 Tracce

- Built-in DVD+RW for backup, transfer and restore
- $\pm 12.5\%$ varispeed
- Grid-style editing
- Workstation/Mixing:
- Turn-key operation: no software conflicts to troubleshoot
- Graphic user interface for editing, mixing, plug-ins and meters
- 48-channel mixing at 96kHz
- 32-bit floating point mixer resolution
- 6 stereo returns (60 inputs at mixdown)
- 24 busses, 6 aux sends, stereo master buss
- Full dynamic automation
- Dynamics, 4-band parametric EQ and 4 VST plug-in inserts per channel
- Rear Panel Connections:
- 48 TDIF Digital Inputs and Outputs
- Stereo SPDIF In and Out
- Two 24-channel option slots support analogue, ADAT or AES/EBU expansion cards
- BNC Video In and Thru, auto-terminating
- BNC Word Clock In, Out and Thru, autoterminating
- MIDI In and Out
- TRS balanced 6.3-mm SMPTE In and Out
- 6.3-mm Footswitch Input
