

DENON DNS5000

Produttore : Denon DJ

Cod.Art. : 0622

Lettoce CD/MP3 professionale per DJ

Lettura di CD-R/RW, MP3. Ideale per utilizzo in discoteca. Piatto superiore da 19cm per eseguire Scratch o ricercare una battuta specifica del brano. Ricerca e riproduzione simultanea di due brani su due cd diversi tramite un solo drive, e possibilità di mixare le due tracce tra di loro. Possibilità di espulsione del disco in play con la riproduzione che continua ancora per 35 secondi. 3 modalità di scratch. Shock Proof Memory, Hot Start, Instant Start, display fluorescente, avviso fine traccia. Pitch control variabile. Uscite digitali coassiali (SPDIF) e analogiche RCA. Slot in drive rimuovibile per la sostituzione immediata. Possibilità di comandare 2 DN-S5000 collegati al mixer DN-X800. Finitura in nero.

Caratteristiche

- Table Top Single CD/MP3 Player
- World's First Motor Driven Active Platter for true vinyl emulation (Patent Pending)
- FREE MP3 playback "Plug In" now available!
- Store up to 255 MP3 tracks per disc! (V.B.R. or C.B.R. encoding)
- Alpha Track (2 in 1) allows independent and simultaneous playback of another track from the same disc, mix tracks together with just one unit.
- Hot Disc lets you eject a disc during play and have it continue for another 35 seconds, you can also loop within the Hot Disc memory for an unlimited time
- 3-Way Scratch lets you apply scratch effects by selecting Main, Alpha or Sampler Track as the source
- Mirror Mix lets you select the same track in Main and Alpha Track and play it after a specified time delay.
- Clear Scratch Disc allows you create your own custom slip

DENON DNS5000

mat designs on any standard PC + printer

- 2 DN-S5000 units can be connected to a DN-X800 via the X-Effect ports and operated by the faders
- 2 DN-S5000 units can view each other's Memo data (when connected via the X-Effect In and Out ports)
- Relay Play, Program Relay Play, Random Relay Play are possible when 2 DN-S5000 units are connected together.
- Independent Digital Outputs (Coaxial, SPDIF) for Main and Alpha Track. Constant Digital Output; output at 44.1 kHz is possible even when Playback Speed is changed. With digital connection all effects are available.
- Dedicated Alpha Track Fader Start port.
- Manual input of BPM values (*AUTO BPM and Manual TAP are also possible)
- Switchable display of Main and Alpha Track times.
- 100 mm long Slider for Playback Speed Control
- 4 Hot Starts - a total of 4 Hot Start sounds can be played: Start Point A1, A2, A3, and A4
- 4 Seamless Loops can be made
- A-B Splice removes unwanted sections of a track seamlessly (2 points per track)
- A-B Trim/Move - The A & B points for the seamless loop, sampler loop, and splice points can easily be adjusted using the Scratch Disc in real time.
- 6 Stutter Cue Play Points
- 2 Samplers (approx 15 sec. in 20Hz - 20 kHz, 16-bit, 44.1 kHz quality)
- Recessed Connecting Terminals on the back panel
- Memo Function - 5,000 Loops and Cue's can be stored internally. This data can also be copied to another DN-S5000, and Memo from a DN-D9000 or DN-2600F can also be copied to a DN-S5000
- Instant Start (0.2 sec)
- CD-R/RW Disc Playback
- Plays 3" mini CD's too, without a cartridge adaptor
- Program/Random Play - program up to 25 tracks on a CD for playback and the programs for up to 6 discs can be stored in memory, Random Play of CDs loaded in both drives is also possible.
- Pitch Control; +/- 4%, 10%, 16%, 24%, 100%
