

## SSL Duende Mini

**Solid State Logic**

Cod.Art. : 6249

### SISTEMA DI PROCESSAMENTO AUDIO SSL 16 CANALI

Duende puts the legendary SSL sound within your DAW and Duende Mini makes owning your own slice of SSL sonic magic more affordable and portable than ever. Mini is a stylish little 'one third rack width', all metal construction, desktop box that hooks up to your computer via Firewire. This compact rugged unit is ideal for small studios or laptop based DAW users. Mini makes a stack of DSP processing power available to drive up to 16 mono channels of plug-in processing (at sample rates up to 96kHz) within your host application. Duende Mini is upgradeable to 32 channels of processing power and you can run two Duende units on a single computer system for up to 64 channels of processing.

#### Caratteristiche

- The legendary sound of SSL for your digital audio workstation
- 16 channels of console-grade SSL EQ and Dynamics processing (upgradeable to 32)
- Powerful DSP engine based on SSL's award-winning C Series mixing consoles
- Relieves the plug-in processing burden on your computer's CPU
- Single FireWire connection for fast set-up
- Run two Duende Minis for up to 64 channels of processing

Prezzo : €549,00 IVA inclusa (€450,00 esclusa IVA)
