

## BUGERA 333-212 Combo Valvolare 3 Canali 120W con Riverbero

Produttore : Bugera

Cod.Art. : 6285

### AMPLIFICATORE COMBO VALVOLARE PER CHITARRA CON RIVERBERO

The BUGERA 333-212 is the go-to guitar combo for any rock, metal or hardcore band due to its raw tone, massive power and road-worthy reliability. Whether you want crystal clean punch, sultry smooth classic rock lead tones or that bone shattering metal crunch, the 333 provides extensive tone shaping abilities with virtually unlimited dynamics in a three channel configuration. The 333's brutal power comes from 4 hand-selected and matched BUGERA 6L6 power valves. The 6 BUGERA 12AX7 valves in the preamp add up for terrifying punch and mind-rattling gain. Your fat and juicy guitar tone will sing through two highly respected custom BUGERA 12-inch speakers, faithfully reproducing every nuance of your playing, right down to the fine reverb tails from one of two separate reverbs. Each channel features Volume, Bass, Mid and Treble, while the Crunch and Lead offer additional Gain control. We added Impedance switching to match virtually any speaker cabinet, from 4, 8 to 16 Ohms. Plus you'll love the detail in the fine reverb tails. The amp comes with a four-way heavy-duty metal footswitch for channel and effects loop selection to tap your favorite effects. This boutique-style amp is constructed using precision manufacturing, blended with our artisan hand assembly, so you can be confident it will stand the test of time. The next time you wield your axe, feel the Soul of Valves with the BUGERA 333-212.

#### Caratteristiche

- Hand-built 120-Watt guitar combo driven by 4 x 6L6 valves (convertible to EL34)
