

EUPHONIX MC Control

Produttore : Euphonix

Cod.Art. : 6370

SUPERFICIE DI CONTROLLO

MC Control is loaded with power features to speed up and enhance your creativity with any media application. Effortlessly switch between multiple applications and workstations at the touch of a button. The MC Control's high-resolution touch-screen interface, motorized faders and arsenal of rotary encoders, soft keys and transport controls instantly snap to the selected application to put multi-format metering, plug-in parameters, track information and much more at your fingertips. Most importantly, software developers like Apple, Steinberg, MOTU and others have worked closely to integrate native support for Euphonix' EuCon control protocol into their DAWs to deliver an unmatched editing and mixing experience.

Caratteristiche
