

MOOG MUSIC MP201 Multi Pedal - Pedale Controller CV/MIDI 4 Canal

moog

Cod.Art. : 6371

PEDALE DI CONTROLLO MIDI

The Multi-Pedal is a programmable four channel CV/MIDI foot pedal controller. It has four analog control outputs, MIDI In & Out and USB connectivity (MIDI over USB). It can transmit controller information on up to 4 MIDI channels and CV outputs simultaneously.

Each CV output can be programmed individually. Signals can be foot pedal controlled analog control voltages with +/-5V limits, LFO waveforms or GATE voltages (0V=Off,+5V=ON). In addition, each channel can output MIDI CC's over specified MIDI channels simultaneously with the analog CV outputs.
