Play. Rock. Live.

**Play.** The RP250 guitar multi-effect processor gives you your favorite core tones as well as helps you invent new ones. Choose from over 89 stompboxes, amps, effects and cabinets all arranged in easy to dial up tone and effect libraries. The RP250 also features USB jack for both editing presets and streaming to your favorite recording DAW.

**Rock.** When on stage, the RP250 allows you to easily make sonic leaps from preset to preset consisting of brilliant, clear, cleans to your favorite driven stacks with just the touch of a footswitch. No need for multiple taps to turn effects on and off and change amp channels! Need a different amp for the bridge, create a new preset with the amp and tone you need to easily fill that sonic void. Express yourself without limitations.

**Live.** Whether you play, rock, jazz, blues or full blown metal, the RP250 has the tones for you. Music is the key to happiness, play to live, live to play. The RP250 is the tool to help you find your inner rock star.
