MULTIEFFETTO PER CHITARRA

Introducing the new RP90 from DigiTech! This guitar modeling processor is hot-rodded from the engine out. Powered by the new AudioDNA2™ processor, the RP90 features your favorite boutique models including wah, stompboxes, amplifiers, cabinets, modulation effects, delays, reverbs, and special effects like DigiTech's Whammy™. Aside from an arsenal of models to choose from, the RP90 features tone and effect libraries allowing you to quickly program sounds with ease. Completing the RP90 are 100 aggressive sounding presets that appeal to today's modern players.

Caratteristiche
