CASSA ATTIVA 600 WATT CON PROCESSORE DIGITALE

It doesn't matter if you need a PA system for a heavy metal band, a church or a one-man show. You want a speaker that sounds great at whisper level but can also level the house if needed. The state-of-the-art EUROLIVE B1220DSP PA speaker system boasts 600

Watts that will simply blow you away. It holds a bi-amped 600-Watt engine which drives a high-efficiency 12" woofer for brutal punch and a 1.75" titanium driver for high-end resolution. The rotatable, asymmetrical horn design allows a driver adjustment for either horizontal floor monitor application or upright position. The built-in mixer allows you to run the show without any extra equipment. But this animal also has a brain: a powerful 24-bit DSP controls the crossover, a dual compressor/limiter, phase and time corrections and even a noise gate. The intelligent dynamic EQ makes sure your system sounds perfect at any sound level.

Caratteristiche

- High-power 600-Watt 2-way PA sound reinforcement speaker system with integrated mixer for live and playback applications
- State-of-the-art 24-bit digital signal processor for ultimate system control
- Digital crossover, phase and time correction for perfect driver alignment plus dual compressor/limiter for total system protection
- Digital noise gate, low-cut filter, 2-band EQ, dynamic Contour filter for ultimate sound reproduction
- 2 ULN Mic/Line inputs with individual volume controls and peak LEDs
- Extremely powerful 12" long-excursion driver provides incredibly deep bass and acoustic power

BEHRINGER B1220 DSP Eurolive 600 watt

- State-of-the-art 1.75" titanium-diaphragm compression driver for exceptional high-frequency reproduction
- Additional Line output enables linking of additional speaker systems
- Versatile trapezoidal enclosure design allows different positioning
- Cluster and stacking mode
- Stand mounting with 35-mm pole socket
- Rugged steel grill for optimal speaker protection
- Ergonomically shaped handles for easy carrying and setup
