EFFETTO PER VOCE

If you're tired of the dull, dry vocal coming back at you onstage, you're ready for the VoiceTone Create pedal. Now you can have the same pro quality ambience and ear-catching effect types that producers use in the studio to make vocals sound sweet. At its simplest, Create is a high quality voice effects unit that you bring to performances to feel confident that your style of effects, whether it's country, rock, metal, blues or jazz, is under your control. Create features 99 preset combinations of reverb, delay, thickening/microtuning, distortion and telephone/megaphone effects that can inspire creativity and bring the sound of the CD to the stage. The straightforward controls, A/B effects switching and simple radio button preset selection give singers easy access to a rich palette of effects.
