

BUGERA 6262-212 Combo Valvolare 2 Canali 120W con Riverbero

Produttore : Bugera
Cod.Art. : 6690

COMBO VALVOLARE 120 WATT 2 CANALI CON RIVERBERO

The BUGERA 6262-212 can blast every imaginable kind of guitar tone from its two original BUGERA 12" speakers. This versatile 120-Watt rock machine's powerful sound comes from six matched 12AX7 preamp tubes and four matched, sparkling clean 6L6 tubes. Or, if you'd prefer the "untidy" sound of British-style EL34's, just flip a switch, then swap them out. Classic "rooster head" knobs let you customize the 6262-212's sound. Both the Clean and Lead channels have independent Gain, Volume, Treble, Mid, Bass, Reverb and Presence dials. The Clean channel is outfitted with a Crunch button that provides an overdriven middle ground between Clean and Lead, as well as a Bright button that provides a beautiful high-end boost. The 6262-212 includes an impedance switch (4, 8 and 16 Ohm) making it compatible with virtually any speaker cabinet. It even includes a metal-clad footswitch that allows you to activate the channels and the FX Loop. Plug into the BUGERA 6262-212 and get ready to make all-tube tone a part of every step of your musical evolution.

Caratteristiche
