PEDALIERA DI CONTROLLO USB + SCHEDA AUDIO

Per i possessori di AmpliTube 2, AmpliTube 2 Live, Ampeg® SVX, AmpliTube Jimi Hendrix™ and AmpliTube Metal.

The StompIO, USB floor controller and audio interface, gives you full control over the 5 current "Powered by AmpliTube" software/plug-ins (AmpliTube 2, AmpliTube Jimi Hendrix™, Ampeg SVX, AmpliTube Metal and AmpliTube 2 Live) and also future packages, with the same feeling of a traditional hardware floor processor - no need to even look at the computer screen or touch the mouse - for a combination of hardware and software making it the most powerful guitar amp and FX system ever made. You can finally play live with ultimate amp and FX modeling software and an unprecedented sound quality, power and flexibility-which will revolutionize your stage and studio guitar and bass rigs. Immediately access thousands of amp combinations and hundreds of effects with fully selectable and configurable stomp boxes, amp-heads, cabinets + mics and rack effects. All of this can be used as standalone software for live play or integrated as a plug-in with the most popular DAWs such as Pro Tools®, Cubase®, Logic®, Live™ and more.
