REMOTE PREAMP

DCS combines UA's pedigree for sonic excellence with the usability/features of professional consoles in a new type of convenient "micro-console" desktop form factor, ideal for today's project/producer studios. The first two products in the DCS series (the Remote Pre & Monitor Master) combine a base station with a DCS-Link™ connected remote that puts every control within direct proximity to the user in a convenient remote format.

Caratteristiche

- Two channel linkable, console grade transimpedance mic preamp/DI
- Mono, Stereo or Mid/Side recording
- Monitoring features such as high quality headphone amp, Reverb and EQ
- DCS-Link™ - 100% digitally controlled analog signal path via (CAT-5) interconnect
- Remote design allows up to 300' distances from preamp for large or multi-room setups

TECHNICAL SPECIFICATIONS:

- Frequency Response: 4Hz to 150kHz, +0/-3dB
- Distortion: 0.002%, 1kHz, 40dB gain, +14dBu out

Microphone Inputs:

- Connection XLR balanced, transformer-less
- Impedance 2 k ohms
- Noise-130dBu EIN, 50 ohms 20Hz to 20kHz, 69 dB gain

Direct Inputs Connection:

- TRS balanced or TS unbalanced, transformer-less
- Impedance 4 M ohms balanced, 2 M ohms unbalanced
- Noise-102dBu EIN, 50 ohms 20Hz to 20kHz, 42 dB gain

Prezzo : €1.219,00 IVA inclusa (€999,18 esclusa IVA)
