Caratteristiche Classik Studio reverb

- Suite of 4 separate reverb units: Plate, Room, Hall, and Inverse
- State of the art DSP based reverb algorithms
- 2 operational modes: Easy and Advanced
- 6 easy to use controls in Easy Mode
- More than 100 Parameters in Advanced Mode
- Highly customizable 8x8 Modulation Matrix per unit
- 4 assignable Macros per unit
- Full automation through host sequencer

Caratteristiche T-RackS 3 Standard

- 4 classic, award-winning T-RackS processors
- New configurable mastering/mixing chain - run up to 12 parallel/series processors
- New complete built-in metering section with Peak, Perceived Loudness, Phase, and RMS meters, plus a Spectrum analyzer with Peak, RMS and Averaging indicators
- New standalone and plug-in versions available in the same package for use in all the most popular native DAWs

IK MULTIMEDIA CSR Classik Studio Reverb + T-RackS 3 Standard

- All module processors and metering are also available as individual plug-ins for more convenient mixing within your DAW
- New high-fidelity oversampling with crystal clear transparency, for high quality audio processing throughout the entire signal path
- New SCC™ technology coupled with IK's unique DSM™ technology provides the most realistic software emulation of vintage gear to date
- Extremely easy to use, with style-based presets, full chain visualization, one-click single module or chain bypass, "compare" function, multiple audio processing in standalone mode and much more
- Works as a standalone application, as well as a plug-in
- Fully compatible with Mac OS X (Universal Binary), and Windows (XP / Vista)
- Supported plug-in formats: VST, RTAS, and Audio Units
- ASIO (Windows) and CoreAudio (Mac OS X) compatible (standalone only)
- Configurable mixing/mastering chain - run up to 12 parallel / series processors
- High quality oversampling
- High precision and high transparency digital processors
- Accurately analog modeled vintage classic devices
- Full latency compensation support
- Module and Global presets
- Multiple curves Fade In and Out (standalone only)
- Multiple Snapshots, independent for each audio file (standalone only)
- Supports sampling rates up to 192 kHz
- Supports multiple input and output audio formats (Wav, Aiff, sd2, Apple Caf, Flac, MP3), sampling rates and resolutions
- High quality sampling rate and bit depth converters
- Single or Multiple audio files processing (standalone only)

IK MULTIMEDIA CSR Classik Studio Reverb + T-RackS 3 Standard

- DSM™ and SCC™ proprietary IK technologies for extremely accurate digital models of analog hardware devices

Prezzo : €378,00 IVA inclusa (€309,84 esclusa IVA)
