

## TC ELECTRONIC Digital Konnekt x32

Produttore : TC Electronic

Cod.Art. : 7053

### INTERFACCIA AUDIO FIREWIRE

Digital Konnekt x32 is every studio's missing link, integrating digital equipment with computer-based recording setups. Digital Konnekt x32 is the utility product fitting the needs of project studios and other digital setups in need of a 'Swiss army knife' in digital signal handling. It features FireWire connection to and from your DAW and it allows efficient routing and conversion between multiple digital formats and sample rates, as well as providing extra features such as analog outputs, scene recall, convenient monitoring and front panel lock.

### Caratteristiche

- Flexible digital patchbay
- Format Converter
- 16x16 ch Audio interface
- Seamless DAW integration with Integrator plug-in
- Unique digital matrix style UI for direct selection of signals
- 8 ch of sample rate conversion on board for optimal digital adaptation
- Analog outs (phone and balanced line) for monitoring
- Scene recall enabling instant recall of full setups
- Front panel UI lock to prevent unintended use
- JET™ technology ensures rock solid digital signal handling
