MONITOR DA STUDIO

By combining our expertise in reference monitor design with our proven track record in studio amplification, Alesis' new M1 Active™ Bi-amplified Reference Monitor offers the incredibly accurate response that perfectly translates to every playback system. Its internal active crossover and custom-designed dual amplifiers ensure an extremely consistent performance under a variety of different studio conditions and program material. The result is a broad, extremely flat frequency response, clear imaging with a wide sweet spot, high power handling and detailed high- and mid-frequency response that only a professional powered monitor can deliver.

Caratteristiche

- Custom Drivers Designed For Active Monitoring Active Bi-Amplifiers and Electronic Crossovers Attractive Cabinet Design with Dual Ports and Offset Tweeter
- Frequency Response (Hz-kHz) 45 Hz-22 kHz
- Crossover Frequency (kHz) 2 kHz
