

UNIVERSAL AUDIO UAD2 Quad Flexi

Produttore : Universal Audio

Cod.Art. : 7208

PROCESSORE DSP PCI

The UAD-2 Quad Flexi combines Universal Audio's revolutionary new DSP acceleration hardware with a customizable selection of UA's premier plug-ins. If you need the best sounding collection of plug-ins for your DAW but want the flexibility to "pick and mix" and build your plug-in collection gradually, the UAD-2 Flexi Family is for you. Use the included UAD\$500 plug-in voucher at the UA online store 24/7 to select from UA's entire library of world-class plug-ins and customize your own UAD-2 plug bundle while saving \$150 vs. buying a card and plug-ins separately. Preview the current lineup of plug-ins via fully functional 14-day demos. Audition each one to hear how it works for your music and buy the plug-ins you really want.

Caratteristiche

- 10X the DSP power of UAD-1
- Includes UA Mix Essentials II and UAD\$500 Voucher
- VST and AU support, cross-platform Mac OS X Tiger/Leopard, Windows XP/Vista
- LiveTrack™ Low-latency live monitoring/tracking mode
- Use up to 4 UAD-2 and 4 UAD-1 cards in one system
- High-bandwidth PCI Express x1 DSP accelerator card

Prezzo : €1.799,00 IVA inclusa (€1.474,59 esclusa IVA)
