CUFFIA MONO CON MICROFONO DINAMICO

The ATH-COM1 is a single sided monophone with a flexible microphone boom which is particularly suited for hand free voice-activated computer and multimedia applications. The sound quality is excellent, and the over-the-ear headphone provides comfort by way of a cushioned ear pad. The cable for the ATH-COM1 has two 1/8" mono mini-plugs, one for input, the other for the microphone output. Two 1/4" TS phono adapters are provided. The microphone is a dynamic design.
