

## EAST WEST QL Pianos Gold Edition

Cod.Art. : 7684

### VIRTUAL INSTRUMENT

This collection includes four of the world's finest grand pianos: a Bechstein D-280, Steinway D, Bosendorfer 290, and Yamaha C7.

The

PLAY interface includes impulses from the same hall the producers used to record Symphonic Orchestra and Symphonic Choirs so the pianos can blend with those collections. Many users asked us for a lighter version of our EASTWEST/QUANTUM LEAP PIANOS that will allow

them to run the most critically acclaimed pianos collection (see reviews) on slower computers. EW/QL Pianos Gold gives you that option, with only the player-perspective mic position included.

### Caratteristiche

- The most detailed piano recordings - EVER!
- Load any piano or mic position individually (each piano is approx. 15Gbs)
- 10-18 velocities per note of sustain and sustain with pedal
- 8-12 velocities per note of repetitions and repetitions with pedal
- 5-8 velocities of soft pedal and soft pedal with sustain pedal
- 16 velocity staccato on every piano
- Repetition samples taken from 180 BPM performances for a TRUE repetition sound and not simply an alternate take.
- Software detects true repetitions
- Resonance - pedal resonance recorded for every note at multiple velocities, as well as with the soft pedal down
- Proprietary resonance captured on the Bosendorfer
