

## RELOOP Digital Jockey 2 Interface Edition

Cod.Art. : 7954

### CONTROLLER MIDI PER DJ

L'edizione "Interface" di Digital Jockey 2 dispone di un interfaccia audio USB 4 canali 16 bit/48 kHz di elevato livello. Quindi il Reloop Digital Jockey può essere collegato direttamente al PA, alle cuffie e ad un microfono. Inoltre un'altra fonte come un lettore CD o un giradischi possono essere integrati nel setup.

#### Caratteristiche principali

- Professional DJ USB/MIDI controller with integrated audio interface
- Integrated 4 channel USB audio interface with 16 bit/48 kHz
- Stereo RCA inputs (with phono pre-amp) in order to connect CD players and turntables plus 6.3 mm microphone jack (with an equalizer of its own)
- Stereo RCA outputs for the connection of a master sound system and 6.3 mm headphones jack for direct monitoring (with an equalizer of its own)
- Record gain at the device's front side
- ASIO drivers with minimum latency and best audio characteristics
- Optimized for the world's leading mixing software Traktor PRO (clearly arranged shift double assignment, control of up to 4 decks)
- Native Instruments Traktor LE included
- All controllers in full size
- Altogether 73 MIDI controllers (42 buttons, 5 faders, 9 encoders, 6 push encoders, 9 turning knobs, 2 touch-sensitive jog wheels)

## RELOOP Digital Jockey 2 Interface Edition

- All MIDI controllers are freely assignable
- USB bus power: power supply also possible via USB
- Anti-theft device: Kensington safety slot
- Mac OSX and Windows XP/Vista compatible
- Clearly arranged mixer/CD player design for quick and easy access
