

BEHRINGER EPX3000

Produttore : Behringer

Cod.Art. : 8077

FINALE DI POTENZA 3000 WATT

Power amps have always been heavy, mainly because of the massive transformers and heat sinks. Our new EPX Series amps are based on groundbreaking switch-mode technology which eliminates the heavy transformer. As a result, the amp weighs around 40% less - in fact the EPX3000 is just 22 lbs./10.10 kg, and you can lift it up almost with one finger. Best of all our super-reliable switch-mode power supply provides an even tighter bass performance as it can deliver ultra-high peak currents.

Caratteristiche

- 2 x 1500 Watts into 2 Ohms; 2 x 900 Watts into 4 Ohms; 3000 Watts into 4 Ohms (bridge mode)
- ATR (Accelerated Transient Response) technology for ultimate punch and clarity
- Ultra-light, ultra-low noise and ultra-efficient switch-mode power supply for noise-free audio, superior transient response and low power consumption
- Switchable limiters offer maximum output level with reliable overload protection
- Detented gain controls for precise setting and matching of sensitivity
- Precise Power, Signal and Clip LEDs to monitor performance
- XLR , 1/4" TRS and RCA input connectors for compatibility with any source
- Professional speaker connectors and "touch-proof" binding posts support most speaker wiring systems
- Built-in Subwoofer/Satellite crossover for more flexibility
- Independent DC and thermal overload protection on each channel automatically protects amplifier and speakers without

BEHRINGER EPX3000

shutting down the show

- "Back-to-front" ventilation system including air filter for reliable operation

- "Built-like-a-tank", impact-resistant, all-steel 2U rackmount chassis

- High-quality components and exceptionally rugged construction ensure long life

- Conceived and designed by BEHRINGER Germany
